I had never heard of T.M.J. All I knew was my jaw joint ached. I couldn't chew without great pain or even open my mouth wide enough for a modest sandwich. Worst of all was the unexplained pain behind my ears. At the next dental appointment Dr. P. said the magic words - I can help you. You have T.M.J. I can make a mouth guard that will relieve the pressure of clenching your back teeth. And he did - - and voila - - after following instructions and wearing my mouth guard at night the pain subsided and 3 months later I am feeling back to normal - THANK YOU, Dr. P.
